Project Updates:

We are happy to welcome Garrett and his family to Happy 2 be Home. Garret is a 7 year old boy who was diagnosed with Batten's Disease – Neuronal Ceroid Lipofuscinosis (NCL). The family is converting their existing dining room into a wonderful first floor bedroom that will keep Garrett comfortable and safe, and also allow him to be involved with daily family activities. We are delighted to provide a grant to help the family offset the costs of construction.

Contractor bids are currently being sought for the accessible bedroom and bathroom for Kelly.

The family of Ethan (an existing H3bH child) has reached out to us as they look to have a ceiling lift installed in their home. Ethan, now 72 pounds, is becoming more difficult for the family to transfer around the house. The lift will allow the family to transfer Ethan from his bedroom to the therapeutic swing and wheel chair in the living room and access to the bathroom. Bids are being sought.

If you know of a family with a chronically ill child who needs assistance in providing a suitable home environment to help enhance their quality of life, please have them get in touch with us.

Special Thanks:

Drew Carney has started an ongoing giving campaign. When someone buys and/or sells a home with Drew, he will donate $500 at closing to H2BH.
